

Module 3 - Demography and Deprivation

Note: Also see Module 8 for further information and analysis regarding social factors

Content Overview

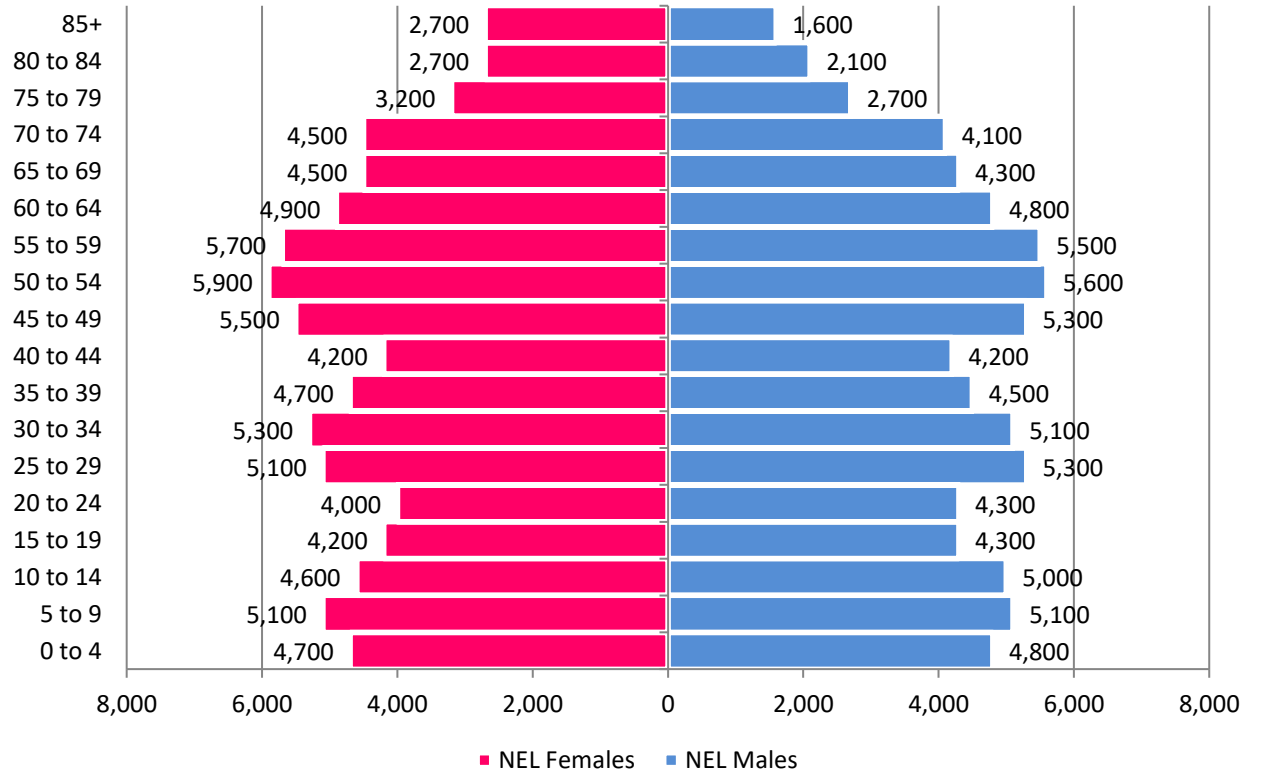

3.1 Demographic Profile

3.2 Deprivation

3.1 Demographic Profile

- It is estimated that there were 37,806 children and young people aged 0 to 19 living in North East Lincolnshire in 2018.
- 0-19 make up approximately 23.7% of NEL's population. Of these, around 30.4% are in the 0-5 age group and 74.8% in the 5-19 age group.
- Within the 0-19 population, 50.8% are boys and 49.2% girls.

Demographic Profile

- 8.9% of pupils in schools in NEL (covered by the School Census) are from a minority ethnic background.
- The 2011 census indicated that North East Lincolnshire was less diverse in terms of religious belief than Yorkshire and the Humber and England.

Demographic Profile

- The overall 0-19 population is projected to decrease over the 25 year period 2016-2041 by 11.4%.
- Within that same time period, the 0-5 population is projected to decrease by 16.4% and the 5-19 population is projected to increase slightly (3.6%) until 2024, before declining by around 12.5%.
- Planned economic growth over the next 15 years is likely to mean growth in working-age and CYP populations and may impact on the reliability of these projections.

3.2 Deprivation

- The new Indices of Multiple Deprivation (IMD) for 2019 ranked NEL as the 29th most deprived local authority in England (using the average score measure).
- 32 (30%) of LSOAs in NEL are in the most deprived 10% of LSOAs in England – we have the 17th highest proportion of LSOAs in the most deprived 10% of LSOAs nationally.
- 11 LSOAs in NEL are in the most deprived 1% of LSOAs in England.
- A more detailed analysis of IMD is presented in Module 8 under ‘social factors’.
